LAND SWINDLING

In Tennessee - A Warning - Persons from Abroad Should Make their Inquiries of the Bureau of Agriculture.

The following letter was referred by the

governor to Commissioner Killebrew for investigation: LANSINGBURG, N. Y., January 20, 1879. To His Excellency the Governor of Tennessee: Some time since an article appeared in the New York Tribune, is which your name was mentione as being able to give information to persons desiring to settle in your State. I purchased five hundred acres of land in Humphreys county, a portion of a tract of five thousand acres, granted by act of the legislature, on the fourth day of April, 1856, by No. 2846, to denry J. Laws, survey bearing date minth day of April, 1856, This grant is signed Anarew Johnson. My deed claims a tract of five hundred acres, 19mg on the south side of Little Richiand creek, a branch of the Tennessee river, conveyed to the grantor by James J. Keneday, by warantee deed, on the fourfeenth day of July, 1873. I have written to the county clerk of Humphreys county several times, and can get no answers to my letters. I have been explicts in my description of the land, as I want information relative to the tract. With such I may induce settlers, as well as taking possession of my own tract and improving the same. Can you give me the information, or direct me to the parties that will do so? I am, with great respect, your bedient servant.

Please direct answer to Dr. D Newcombe, Lansingburg, Bensselair county, New York.

The above letter, referred by Governor Some time since an article appeared in the New Tae atove letter, referred by Governo one of many letters received by the bureau and shows the great amount of swindling that has been done to innocent parties. . As has been learned by investigation, the true of land described does not exist. About the year 1837, an act was passed by the Tennes see legislature granting all vacant lands to

went into effect, every known foot of vacant land in Tennessee was taken up. All entries since that day are spurious, and parties buy ing will lose their money. Nevertheles swindlers, either with or without official co lusion, have succeeded in procuring entries over and over again, that, like the land al uded to in the accompanying inquiry, ar worthless, being for base purposes. trict in Perry county has more land entered on the tax book than exists in the whole county. Humphreys county is covered ter entries deep in most places, and the fiv-thousand acres described in the letter is lo cent to Waverly, that would not hold hive hundred acres. Let parties wishing to bu-land, first write to reliable persons in the named county-and the bureau of agricultur names of such—and get a correct account o the character of the title. Then there will be no danger of losing both money and in rovements, as unfortunately too many have

What is Vermifage? You need ask no further, if yourself o to Dr. C. M'Lane's vermifuge as a specific Its results will tell the whole story. But be sure to see the doctor's name reads "Lane. There is only one lane leading to a certain cure, and that is it; others are a delusion.

Floyd's andies Are often imitated, but never equaled. Queer, Isn't It, ow fast all smokers are learning that the 'Duke's Durham' smoking tobacco is the best? Ask your dealer for it, and take no
